The Financial Statements were approved by the Directors on 23 August 2018. A copy of the condensed interim consolidated financial statements can be obtained at the Company's Head Office. The Board does not recommend the payment of an interim dividend.

Elly Karuhanga Chairman, dfcu Limited

Winnie Kiryabwire
Director, dfcu Limited

Highlights of the performance for the 6 months ended 30 June 2018:

On 27 January 2017, **dfcu** Limited's wholly owned subsidiary, **dfcu** Bank Limited acquired certain assets and assumed certain liabilities of Crane Bank Limited (in receivership). **dfcu** Bank Limited was able to successfully integrate the acquired assets and liabilities into its business operations. As per the requirements of IFRS 3-Business Combination, **dfcu** Group was required to carry out a fair valuation of the assets acquired and the liabilities assumed. The fair valuation exercise resulted into a fair value gain of Shs 121.85 billion that was recognized in in the results for the 6 months ended 30 June 2017. In order to comply with the IFRS standards, **dfcu** Group has to amortize the gain over an average period of 5 years. This amortization has been included in the results for the 6 months ended 30 June 2018.

Profit after tax

dfcu's Consolidated profit for the 6 months ended 30 June 2018 normalised following the integration of the acquired net assets of Crane Bank Limited (In Receivership). The results show a profit of Shs 41.3 billion compared to Shs 114.1 billion for the same period in 2017. The results for the period ended 30 June 2017 included a one off bargain purchase of Shs 121.8 billion. The bargain purchase is required to be amortised over a period of up to 5 years and hence the 2018 results include an amortization charge of Shs 12 billion in respect of this item.

iterest expense

The interest expense reduced by 17% from Shs 64.3 billion in 2017 to Shs 53.4 billion in 2018 attributed mainly to the repayment of the bridging facility and other obligations.

Operating expenses

Total operating costs grew by 6% during the 6 months period to 30 June 2018 compared to same period in 2017. This increase was mainly attributed to two major items: the amortization of the bargain purchase (Shs 12 billion) and continued investment in the digital infrastructure inline with our strategic aspirations. If adjusted for the amortization, the overall Cost: Income ratio would be 58%.

Loan Impairment

There was a marked improvement in the portfolio management resulting in the reduction in the non-performing assets and related provisions.

Total assets

The Group's asset base remained stable at Shs 3 trillion as at 30 June 2018. The loans and advances to customers grew by 9% which is above market average for the period.

Customer deposits

Customer deposits grew by 10% over the period under review, mainly driven by our ongoing digitization program and customer confidence in our brand.

Shareholders' equity

dfcu Group's equity increased significantly by 52% to Shs 552.1 billion in June 2018 from Shs 363.7 billion in June 2017. The increase was driven by the successful rights issue and retained profits. This is an indication of the confidence the shareholders have towards the Group.
